Bowling Pin Shoot

Why has shooting bowling pins taken off to the extent it has? Because it's fun! Bowling pins are a dynamic target, if you hit them off center they tend to fall down instead of going off the table. Once they're lying down they'll usually spin when hit on the ends instead of going off the table. These factors make the simple statement of "clear the table of 5 pins" more challenging than it sounds.

Regardless of skill level, pin shooting events welcome all new shooters to the sport, and the goal is, at bottom, to have fun. Shooting guns at bowling pins is a lot of fun, regardless of whether you ever win a single round. Your fellow shooters will be glad to have you at their event, whether you clear the table in five seconds or a minute. You'll learn more about shooting and guns at every event, and you'll make good friends along the way.
